

Timber Pre-Harvest Checklist

(F-14a)

Group Member Name		Number		Date	
Buyer		CoC Number			
Logging Supervisor					

How was the timber marked (100% marked, leave trees marked, take trees marked, or specific silvicultural prescription discussed with sophisticated logging crew)?

The following list of items was discussed during the pre-harvest conference with logging supervisor:

- Provide all names and contact information.
- Adjoining landowners notified by Forester.
- Review the terms of the contract including any special logging areas and conditions.
- Discuss management plan objectives, how harvest helps achieve objectives, consequences.
- Discuss RTE species, communities of concern, high conservation value forests.
- Discuss ecologically sensitive features: riparian areas, steep slopes, wet areas, your groups of trees, and other areas to avoid.
- Discuss cultural features: archaeological sites, hiking trails, other areas to avoid.
- Discuss the need to use safety equipment and PPEs.
- Discuss ways to prevent unnecessary injury to the residual stand.
- Discuss sale boundaries, skid trails, and landing areas.
- Discuss separation of certified/non-certified material if sale combines both.
- Certificate number and claim in contract or harvest documentation Discuss closing procedures for skid trails, landings, and roads. Provide copy of BMP guidelines if needed.
- Discuss trash and lubricant disposal.
- Other items discussed: _____
